COVINGTON, Kr., May 21. There has not been for many years, in this country, such a general complaint about chills and fever. This depressing disease is now prevailing in many portions of Kentucky and elsewhere, where the people have long flattered themselves that they were en tirely exempt from its influence. To those who are thus afflicted, we wish to recommend Smith's Tonic Syrup, believing it to be the very best remedy extant. Every one we have heard of using it, pron es upon it in the very highest terms. We have late ly used it in our family with marked success. The ingredients are simple, and the Tonic can be used freely without any detriment to the constitution what ever. If the directions, which always accompany every bottle, are carefully followed, it will in nine cases out of ten result in a permanent cure, whether the disease be of long or short standing.

We take pleasure in recommending this medicine to the subjects of this disease everywhere, sincerely believing that the use of it will verify every word w For sale by C. B. Bickford & Co., Troy, Kansas.

He was a radical Free State man and Republican, was a radical advocate of woman suffrage, and was radical on the money questio He had a financial theory of his own, different from all others ever dreamed of, which he called the "Corn-crib System," and which he had illustrated with extensive maps and charts, upon which he spent considerable time, labor, and money. He was ever ready to explain his theory to any person, meeting or convention, but could rarely prevail upon any to give him a hearing. His theory has died with
